**SENATE BILL**

**No. 2098**

---

**Introduced by Senator Wright**

February 20, 1998

---

An act to amend Sections 5330 and 5610 of the Welfare and Institutions Code, relating to mental health, and declaring the urgency thereof, to take effect immediately.

LEGISLATIVE COUNSEL'S DIGEST

SB 2098, as amended, C. Wright. Mental health: Lanterman-Petris-Short Act: reporting requirements.

Existing law permits a person to bring an action for damages for violation of various provisions of the Lanterman-Petris-Short Act regarding the release of confidential information for the greater of \$500 or triple the actual damages sustained.

This bill would increase that limit to the greater of \$10,000 or triple the actual damages sustained.

Under the Lanterman-Petris-Short Act, each county mental health system is required to comply with specified reporting requirements developed by the State Department of Mental Health.

This bill would impose a state-mandated local program by permitting the State Department of Mental Health to require the county to report the names and other personal identifiers

of clients, which would be required to be treated as confidential information.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The bill would declare that it is to take effect immediately as an urgency statute.

Vote:  $\frac{2}{3}$ . Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.
